

Ms. Cindy Park

Head of Korea Equity Research, Head of Asia Energy
Nomura

Cindy joined Nomura in 2004 and is Head of Korea Equity Research, Head of Asia Energy Research. She leads research and price forecasts for oil & gas/chemical and metals, in addition to her stock coverage.

Prior to joining Nomura, she was with Merrill Lynch and Samsung Corporation's chemical trading division.

Cindy has 20 years' experience as an energy analyst and, prior to that, and six years as a chemicals trader/marketer. This provides her with good connections with global commodity trading houses and with management of the companies she covers.

Cindy can offer access to various companies and industry contacts across different sectors. As an experienced analyst in the energy sector, Cindy has a strong industry knowledge base and database that facilitate insightful forecasts. She can help investors understand clean/renewable energy as well as oil, chemical, refining, steel industry in simple terms so they can help make sound investment decisions.
