

## Pierre Lenders

Head of ESG  
Capital Fund Management

For just about one year now, Pierre has been heading sustainability and ESG integration at Capital Fund Management, a Paris based systematic asset manager. Previously at a FinTech boutique (Prius Partners) then at an Equity Long Short fund (TerreNeuve Capital), his key focus has remained the intersection of responsible investing and alpha generation.

For most of his career before that, Pierre held various positions in investment banking, capital markets technology and fund of hedge funds, patiently learning about how markets at time discount, or not, relevant information.

Pierre graduated from Ecole Polytechnique in Paris in 1984 and ENSAE in 1986 (econometric and statistics).
